

# CALEB OKECHUKWU

Frontend web developer

**Website:** devcaleb.me

**Github:** <https://github.com/Kaybangz>

**Email:** devcaleb96@gmail.com

**LinkedIn:** <https://www.linkedin.com/in/igcaleb/>

A self-taught web developer that is passionate about writing good code. I am a strong communicator who has experience working in a group and contributing to github projects.

## SKILLS SUMMARY

---

- Familiar with basic html and css, sass preprocessor, javascript, typescript, react, next and react native.
- Knowledge of the git version control system.
- Ability to use modern css frameworks such as bootstrap, material UI and tailwindCss.
- Proficiency with the Redux state management tool and the Jest testing framework.

## PERSONAL PROJECTS

---

- **ShareWithWorld**
  - Minimalist social app where users can sign in, upload photos, like and comment on photos of other users. I designed it using React, React Router, React Context Api, Material UI, firebase, styled component and a few other React component libraries.

**Github** - <https://github.com/Kaybangz/shareWithWorld>
- **Nba app**
  - A React application that lets you check for the Nba 2021/2022 season stats of any Nba player. I designed this application using basic React and the balldontlie Api.

**Github** - <https://github.com/Kaybangz/basketball-program>

- **HoodNvgga**

- HoodNvgga is an minimalist ecommerce add to cart program built using react, react router, paystack payment service(testing mode).

**Github** - <https://github.com/Kaybangz/AddToCart>

## RELEVANT EXPERIENCE

---

March/2019 – Jan/2020

**Frontend intern**, Sarutech – Benin city, Edo State.

- I worked on significant projects where I learned how to use frontend tools like HTML, CSS, BOOTSTRAP and other frontend libraries.
- I collaborated with coworkers to ensure that we created appealing, accessible, and user-friendly websites.

March/2019 – Jan/2020

**Frontend tutor**, Sarutech – Benin city, Edo State.

- Developed and arranged training materials/guides to ensure that the content was up to date and that it was easily digestible/optimized for students' learning.
- I was in charge of monitoring students' progress by assigning take-home tasks for them to complete.

## EDUCATION

---

Jan/2015 – Sep/2019

**Bachelor of Science: Cooperative and Economics Management**

*Nnamdi Azikiwe University – Anambra, Awka.*
